KRISHI VIGYAN KENDRA AT A GLANCE

The Education Commission(1964-66) recommended that a vigorous effort should be made to establish specialized institutions to provide vocational education in agriculture and allied fields at the pre and post matriculate levels to cater to the training needs of a large number of boys and girls coming from rural areas. The Commission, further, suggested that such institutions be named as 'Agricultural Polytechnics'. There commendation of the Commission was thoroughly discussed during 1966-72 by the Ministry of Education, Ministry of Agriculture, Planning Commission, Indian Council of Agricultural Research (ICAR) and other allied institutions. Finally, the ICAR mooted the idea of establishing Krishi Vigyan Kendras (Agricultural Science Centres) as innovative institutions for imparting vocational training to the practicing farmers, school drop out and field level extension functionaries.

The ICAR Standing Committee on Agricultural Education, in its meeting held in August 1973, observed that since the establishment of Krishi Vigyan Kendras (KVKs) was of national importance which would help in accelerating the agricultural production as well as in improving the socio-economic conditions of the farming community, the assistance of all related institutions should be taken in implementing this scheme. The ICAR, therefore, constituted a committee in 1973 headed by Dr. Mohan Singh Mehta of Seva Mandir, Udaipur (Rajasthan) for working out a detailed plan for implementing this scheme. The Committee submitted its report in 1974. The first KVK, on a pilot basis, was established in 1974 at Puducherry (Pondicherry) under the administrative control of the Tamil Nadu Agricultural University, Coimbatore. The Planning Commission approved the proposal of the ICAR to establish 18 KVKs during the Fifth Five Year Plan. With the growing demand for more such Kendras, the Governing Body (GB) of the Council approved 12 more KVKs in 1979 and they were established in the same year from Agricultural Produce Cess Fund (AP Cess Fund). The ICAR GB approved 14 KVKs in 1981, which were established during 1982-83 from APCess Fund.

A High Level Evaluation Committee on KVK was constituted by the ICAR in 1984. After thorough review of the programme, the committee strongly recommended for the establishment of more KVKs in the country. Keeping this in view the Planning Commission approved the establishment of 44 new KVKs during the Sixth Plan. Thus by the end of Sixth Plan, 89 KVKs were functioning in the country.

During the Seventh Plan to start with, 20 more KVKs were established. The success of the KVKs at many locations created a great demand for establishment of new KVKs in the remaining districts of the country. Accordingly, the Planning Commission

further approved 74 new KVKs to be established during the period 1992-93. In the Eighth Plan(1992-97), 78 new KVKs were approved and established in the country, taking the total number of functional KVKs by the end of the Eighth Plan to 261. The number of KVKs increased to 290 during Ninth Plan with the establishment of 29 more KVKs.

On the occasion of the Independence Day Speech on 15th August 2005, the Prime Minister of India announced that by the end of 2007 there should be one KVK in each of the rural districts of the country. This resulted in 551 KVKs by the end of the Tenth Plan. During XI plan there was as addition of 79 KVKs and at the end of XII plan total KVKs established were 669. During the current plan (2017-21), 57 more KVKs have been added taking the total to 726 KVKs.

Out of 726 KVKs, 500 are under State Agricultural Universities (SAU) and Central Agricultural University (CAU), 66 under ICAR Institutes, 103 under NGOs, 38 under State Governments and the remaining 19 under other educational institutions.

Growth in number of KVKs during various plan periods

Krishi Vigyan Kendra, a plan scheme designed and managed by the ICAR for over four decades, is playing a vital role because of its following unique features:

- Creation of valuable resources in terms of technical manpower and assets
- Confirmation of technologies to suit local specificity
- Showcasing the frontier technologies
- Capacity building among stakeholders
- Front runner in technology application, information and inputs
- Participatory approaches in planning, implementing, executing and evaluation

Mandate

Single Window Agricultural Knowledge, Resource and Capacity Development Centre.

Activities

- a) Assessment and demonstration of agricultural technologies on the farmers' field for their application and feedback.

-
- b) Capacity development through skilling and training of farmers, farm women, youth and extension functionaries.
 - c) Act as an information and knowledge centre for providing diagnostic and farm advisories to farmers and other stakeholders.
 - d) Production of quality seeds, planting materials and other technological inputs for availability to the farmers.
 - e) Develop convergence and partnership with agriculture related ongoing schemes and programs of different departments and organizations on national priorities.
 - f) Awareness creation and community mobilization on various issues related to agriculture & allied sectors through innovative extension activities including use of ICT and other media
